

## CITY COUNCIL HELD SESSION MONDAY NIGHT

TWO MEMBERS ABSENT AS  
RESULT OF ILLNESS  
LAST EVENING

The city council held its regular meeting Monday evening with two members of the official family absent because of illness. They were Councilman Gwinn Ensign and Clerk-Treasurer Norman Peabody.

City Attorney Frank Stoessel acted as clerk. Mayor Crawley read most of the communications. Only routine business was transacted.

Two members of the newly formed League of Women's Voters, Mrs. Burkhardt and Mrs. Fletcher, were present to observe the council's actions. It was reported before their arrival that two members from this group will attend every meeting of the city council. They will be welcome as a Daily Banner representative has been the only one except on rare occasions, to attend for years.

Mayor Crawley gave a comparison of monies on hand at the beginning of the year. It is believed the total of all funds, \$73,889.10 is about as high a balance as the city has ever had to start a new year.

Tom Herriott, one of the three city police radio operators, has worked out a series of regulations for the fire trucks and the city police, as all vehicles are radio equipped, and these regulations will be followed in the future. It will give the radio operators a check on the two crews and it will also permit them to follow the proper procedure in radio operating.

Councilman Stewart found some interesting reading in the annual report of the chief of police showing the city police car is being driven a total distance of 43,000 miles annually. The state police drive about 4,000 miles monthly. Two city police ride in the car, whereas state officers ride alone.

O. J. Stewart and Walter Cox appeared, asking the council to transfer \$10,000 from the Bond and interest Fund to the Water Department to the operating fund, so the water works could dig a 42 inch well and clean some present wells in order to assure a plentiful water supply for the future. The transfer was made.

There being no further business, the council adjourned, and most of those attending listened to the televised basketball contest.

## Dr. Percy Julian To Head Own Co.

Word has been received here that Dr. Percy Julian, a graduate chemist of DePauw University who has been with the Glidden Company for some time, has resigned his position and will form his own research department.

Dr. Julian has been head of the Research Department of the Glidden Company since 1936 and has done most of his work in developing uses for soy bean oil and soybean by-products. It has been largely through his work that many uses for soybeans have come into general practice.

## Hospital Notes

Dismissed Monday: Martha McCullough, Quincy R. 1; Lena Anderson, Clayton; William McMains, Greencastle.

## 20 Years Ago HERE AND THERE

Mr. and Mrs. Charles Moore, Northwood, were visiting in Dallas, Texas.

Miss Eleanor Cammack returned to West Lafayette to resume her duties in the Purdue University library.

Tri Kappa met with Miss Margaret Emily McGaughey. Formal pledging was held for Mrs. Earle Wiseman.

Mrs. Ward Mayhall was hostess to the Delta Theta Tau sorority.

## BAINBRIDGE MASONS TO INSTALL OFFICERS

Tyler, Ernest Roth.  
All members of the lodge are urged to attend.

## Flames Damage Hecko Residence

Fire caused considerable damage to the home of Mr. and Mrs. George Hecko, on South Jackson street road, at 9:10 o'clock Tuesday morning.

The township fire truck went to the scene and the firemen had to work hard to get the blaze under control.

The most damage was in an upstairs bedroom in the two-story frame dwelling. There was also heavy smoke and water damage, in addition to the flames, in other parts of the house.

## Widow To Serve As Owen Coroner

Mrs. Virginia Macy, widow of Doran Macy, Owen County coroner who was killed Dec. 26 in a highway accident, was named yesterday to complete his unexpired term.

The board of county commissioners appointed Mrs. Macy. Her husband, who also was a Spencer funeral director, was killed while escorting two victims of a previous accident to a Linton hospital.

## Slayer's Search Turns To Muncie

CHICAGO, Jan. 5 — (UP)—Police today tried to unravel the tangled amours of twice-wed Mrs. Ruby Berg after she was found nude in her apartment, a bullet in her brain.

Authorities pressed a search here and in Muncie, Ind., for an adviser who left a note saying "She's no good for me."

The suspect, Curtis King, 40, has not been seen since New Year's Day, and police believe he might have tried to visit his mother at Muncie.

A note found in his hotel room said "I know I can't get away with this," police said.

Homicide officers picked up Mrs. Berg's estranged second husband and questioned her first spouse, who found her body Monday.

The 36-year-old woman's body was clad only in bobby sox when she was discovered by the first husband, Albert O. Kaul, 58.

Neighbors in her apartment building said they heard sounds of a violent struggle about 2 a. m., New Year's Day, and officers believe she died then at the hands of an unwelcome visitor.

## SIX SETS OF TWINS

ST. JOSEPH D'ALMA, Que., Jan. 5. — (UP)—Paul-Emile Tremblay, 29, was in need of two things today after his wife gave birth to her sixth set of twins in less than seven years—a job and a larger house.

The babies were the 12th and 13th children born to Mrs. Rosa Tremblay and her unemployed husband since they were married May 1, 1946. The couple had a "single" in 1950.

Dr. Joseph A. Bergeron delivered the babies, a boy and a girl, Monday in the Tremblay's six-room frame home at 116 D'Alma near here. He said the mother and twins were fine.

Neighbors immediately pitched in to make the mother and infants comfortable and cared for the Tremblays other children.

Mrs. Tremblay had her first set of twins Feb. 18, 1947.

## COUNTY CLERK DOES \$114,000 BUSINESS IN '53

FAST 12 MONTHS BIGGEST  
YEAR IN HISTORY  
OF OFFICE

The year of 1953 proved to be the biggest year in the history of the office of the Putnam county clerk with \$114,115.15 in total receipts. As a matter of comparison, total receipts for 1952 were \$107,412.20, and for 1951, the figure was \$87,826.45.

In other words, the county clerk's office is "big business." Two major items in the list of receipts were money received in trust, \$55,999.40, and support money, \$47,013.75.

The official report for the past year by William Padgett, county clerk, is as follows:

Support money	\$47,013.75
Fines	516.00
Marriage licenses	394.00
Court costs	1,716.25
State Pros. Fees	78.00
Local Pros. Fees	258.50
Local Sheriff	749.65
Fish & Game Lic.	5,006.00
Legal Adv.	1,049.10
Money in Trust	55,999.40
Misc. Fees	51.50
State Docket Fees	1,287.00
New civil cases, 188	
New criminal cases, 111	
New estates probated, 84	

In regards to the item of support money which totaled \$47,013.75, this is the amount of money paid in to the clerk's office during the past year upon order by the court for the support of families as result of divorce and separation litigation.

Of the 188 new civil cases, 20 came to this county on a change of venue. In this connection, Mr. Padgett said that very few cases were venued out of the Putnam circuit court which speaks well for the ability and prestige of Judge John H. Allen.

All this work has been handled by Mr. Padgett and his assistants, Omer C. Akers and Mrs. Regina Shannon.

This group is looking forward to another very busy twelve months as 1954 is election year again which means added work for the county clerk's office.

Mr. Padgett stated that February 23rd is the first day for candidates to file for county and township offices. It is also the first day for candidates to file with the Secretary of State for congressional, legislative and judicial offices.

## To Display New Fords Tomorrow

Ford's completely new 1954 Crestline Skyliner, featuring a transparent, plastic top over the driving compartment, affords an open-air freedom which gives the illusion of riding in a convertible with the top down but retains the weather protection of a hardtop model. The 1954 Ford goes on display Wednesday, Jan. 6th, at King Morrison Foster Co.

The Skyliner's side windows roll down and out of sight to complete this wide open feeling. The strong, molded sheet of plastic is tinted a neutral blue-green to block out 60 per cent of the sun's heat rays and 72 per cent of the glare.

The new overhead visibility of the Skyliner permits passengers to enjoy mountain scenery, read passing building signs or watch for the change of overhead traffic lights through the transparent roof panel. If needed, a sunshade to match the underside of the top lining can be snapped in place.

Covering the entire front seat compartment, the plastic top is mounted on a weather-tight rubber seal and is framed with a bright metal molding. Gold plastic panels at the sides of the rear window have a waffle design and bear the Ford emblem in colors. The bright metal molding across the top of the rear window is ornamented with black enamel insets and serrated body belt moldings have the word "Skyliner" in-set in black enamel.

In keeping with its all-new exterior styling, the Skyliner provides a rich interior decor of new vinyl or new diamond pattern nylon and vinyl upholstery in (Continued on Page Four)

## FIRST HOSPITAL BABY IN 1954

Mrs. Finis Hayes and daughter, Frances Ann  
Little Miss Frances Ann Hayes was the first baby born at the Putnam County Hospital in 1954. She is the daughter of Mr. and Mrs. Finis Ray Hayes, R. 2, Cloverdale.

## Shake-Up Ordered At Girls' School

INDIANAPOLIS, Jan. 5.—Governor Craig inspected the state reformatory today after ordering a broad shake-up in personnel and practices at the Indiana Girls' School.

During a four hour tour of the school Monday, Craig criticized school officials for the way they ran it and the way they clashed among themselves.

He found officials "quarreling and bickering," locked fire escapes in hazardous dormitories, an almost bare solitary confinement room, "streetwalkers" mixed with 12 year olds, and little attention to psychological care of delinquents.

The governor planned to spend most of today at the Pendleton institution and return Jan. 15 to the state penal farm, where last week he found "flop-house" conditions. An inspection date for the state prison has not been set.

Much of the blame for the girls' school faults was attributed to the fact the school had three superintendents in one year. The newest, Mrs. Nellie Daly, was pledged aid of the various state departments in correcting improper conditions.

State corrections chief Hugh O'Brien said three counselors will be fired. They are "social workers," he said, and will be replaced by persons competent in classification of the schools' inmates.

## Kiwanis Club To Install Officers

Officers for the Greencastle Kiwanis club for 1954 will be installed at a special ladies night to be observed Wednesday evening at 6:30 o'clock. The program will be held in the Union Building ball room, and will follow a special roast beef dinner. Officers elected some time ago include:

Robert Gould, President; Cloyd Moss, vice president; Granville Thompson, treasurer; Frank DeVaney, secretary; and Capt. Joseph Campbell, Robert Y. Cooper, Dr. Frank Travis and Sam Hanna as directors.

A special musical program by DePauw students will be given during the evening.

## MANY LOST LICENSES

INDIANAPOLIS, Jan. 6 — (UP)—A total of 31,910 Indiana motorists lost their driver's licenses during 1953, the state bureau of motor vehicles reported today.

Communications William Wilkinson said 17,189 licenses were suspended as a result of accidents, 13,728 for convictions on a variety of charges, several hundreds for mental and physical reasons and 138 under a new point system. This system, started Nov. 1, suspends licenses of chronic traffic violators who accumulate points against their records.

Wilkinson estimated that 110,600 accidents last year resulted in property damage of \$33,700,000.

## Farm Inmate, Car Sought By Police

A penal farm escapee and a stolen car Monday afternoon were believed linked together by state police at the Putnamville Post Tuesday morning.

Robert E. Stevens, 20, sent to the farm from Marion county, escaped from the institution about 2 p. m. At 4 o'clock, the state police were notified that a 1947 Pontiac automobile belonging to William Young had been stolen at the cement plant.

Stevens was serving a term at the farm for vehicle taking.

The car was found abandoned on U. S. 36, west of the State Road 43 intersection, Tuesday morning. Sheriff Joe Rollings reported that a state farm coat and cap had been left in the machine which indicated that it had been stolen by Stevens.

## Farber To Speak At DPU Chapel

DePauw Dean Robert H. Farber inaugurates the 1954 phase of DePauw's twice-weekly chapel series when he speaks tomorrow morning in Gabrin Memorial Church.

Topic of Dr. Farber's address at 10 a. m. will be "The Ivory Tower."

Other first-semester convocations include a program by Cornelia Otis Skinner on Jan. 8 and the Founders' and Benefactors' Day address by President Herman Wells of Indiana University on Jan. 13, both in Gubin Church.

Final chapel of the semester on Friday, Jan. 15, will feature and address by Daniel Evans, Indianapolis executive, in McHarry Hall.

## New State Mark Set By Holstein

JASPER, Ind., Jan. 5.—(UP)—"Ma", a Holstein cow owned by farmer Alvin C. Ruxer, Jasper, broke the state record by giving 1,125 pounds of butter fat and 20,114 pounds of milk in a 12 month period.

Purdue University extension representative Sam Gregory said so far as he can detect, the nine-year-old cow tops all others whose production has been recorded.

"Ma" produced 3.4 pounds of milk per pound of feed. Her year's total would fill 13,541 quart bottles and one pint, and figuring at a retail price of 23 cents per quart, she gave \$3,114.43 worth of milk.

That's a pint of milk for every person in Dubois county, which has a population of 24,000, Gregory said.

## O. E. S. NOTICE

Stated meeting of Greencastle Chapter No. 255 O. E. S. will be held Wednesday evening, Jan. 6 at 7:30. A good attendance is desired.

## MAYOR ASKS CITY TO BACK POLIO CAMPAIGN

EVAN CRAWLEY PLEDGES  
100 PER CENT SUPPORT  
TO FUND DRIVE

Pledging 100 per cent support to the 1954 March of Dimes, Mayor Evan Crawley today called on all citizens to open their hearts and their pocketbooks and give generously.

"The year 1954 may well be the turning point in the fight against polio. We all must help in the battle to banish this crippling disease from our city and our nation," he said.

"The National Foundation for Infantile Paralysis has embarked on a large testing program of a trial vaccine that may some day spare our children the dread effects of polio.

"In addition, the National Foundation is preparing to provide for an expanded program of mass gamma globulin inoculations in 1954, in order to give every possible protection while waiting for the results of the vaccine tests.

"This polio prevention program is tremendously expensive and it will require more dimes than ever. But these dimes and dollars are the best investment we can make for the future security of our most precious asset—our children.

"With our contributions we also guarantee that every victim of polio—past or present—will get the best available medical care regardless of financial status. Our Putnam County chapter of the NFIP stands ready with a helping hand for all polio victims. In 1953 the polio patients were aided in our city because you gave so generously in the last March of Dimes. Today there are more polio patients requiring aid than ever before.

"Until this dread scourge is defeated, we cannot relax our vigilant fight. Our dimes and dollars provide the ammunition needed to gain an eventual, glorious victory. Let there be no shortage of ammunition in our city. "I officially declare January to be March of Dimes month. Let us all march together to victory."

## Woman Jailed Early Tuesday

Katie Coffman, 29, was arrested and lodged in the Putnam county jail at 1:30 a. m. Tuesday by Sheriff Joe Rollings and Deputy Sheriff Noel Bettis.

She was taken into custody at the home of her brother, Johnny Waddle, in Commercial Place, where, according to the sheriff she had been causing a commotion.

## CLASS TO MEET

The class in knitting and crocheting under the sponsorship of the Home Demonstration Agent met Monday afternoon with eighteen registered for the work. The second meeting will be on Monday afternoon, January 11 in the Public Service room on South Jackson street. Registration is still open.

Instructors for the course include Mrs. Harvey Owens, Mrs. Charles Rector, Mrs. Ivan Ruark and Mrs. Charles Spiker.

## START SECOND PROBE

INDIANAPOLIS, Jan. 5 — (UP)—Police began a second investigation today of the nitrous oxide death of Barbara L. Coffey, 16, whose parents refused to believe she committed suicide.

Marion County Coroner, Dr. Roy Storms said he would withhold a verdict until the probe by two homicide detectives is completed.

Funeral services for Miss Coffey, who was found dead in the office of a dentist for whom she was receptionist, were held Monday.

Her parents, Mr. and Mrs. William E. Tripp, refused to accept the report she committed suicide by placing a small dental mask over her face, sitting in the dental chair and turning on a tank of nitrous oxide nearby.

## EXTRA!

WASHINGTON, Jan. 5. (INS)—Virginia state police said today they had recovered the "bulk" of the \$160,000 bills stolen from the U. S. Bureau of Engraving and indicated that an arrest was imminent.

A state police spokesman said that most of the missing money was found in a metal tool box on a farm near Centerville, Va., in suburban Loudoun county, about 20 miles from Washington.

The Virginia official added that four Secret Service agents were at the farm and that a "hot suspect"—a government employee—was expected to be taken into custody.

LEBANON, Ind. Jan. 5.—(INS)—Two men were in the Boone county jail at Lebanon today because it snowed last night.

John C. Hutchinson, 36, and Harry Spaulding, both of Indianapolis, were arrested in connection with an attempted robbery at the New York Central Railroad depot in Thorntown.

Cpl. Marion A. Robbins, of the Lafayette State Police Post, and Thorntown Marshal Ralph Davidson followed footsteps leading from the depot to a car, then traced the car for 20 miles before overtaking Hutchinson and Spaulding near Jamestown.

## WASHINGTON, Jan. 5. (INS)

President Eisenhower gave Democratic congressional leaders a full-scale briefing on the defense and foreign policy phases of his 1954 program today in a bid for bipartisan support in these two key fields.

Democratic leaders of the House and Senate also were informed of the administration's recommendations for military and economic aid to other countries along with the technical assistance or point four program.

Secretary of State John Foster Dulles presented a summary of world conditions at the two and one-half hour conference.

## INDIANAPOLIS, Jan. 5.—(INS)

A plan to prevent fraudulent obtaining of drivers licenses was announced today by the Indiana Motor Vehicle Bureau.

Beginning with all licenses issued this year, each driver will be assigned a permanent coded driver's license number. Previously, the licenses were issued in a numerical sequence, with a new sequence beginning each year.

Fraudulent obtaining of a driver's license will be eliminated because no license will be issued unless there is an original application on file.

The coded number will be based on the applicant's initials and his date of birth.

## ST. LOUIS, Jan. 5. (INS)

Bishop G. Bromley Oxnam claims that reputations of individual are being endangered by the incompetencies of congressional investigating committees.

The Methodist Bishop, former president of DePauw University, and president of the World Council of Churches, addressed the Liberal Forum at the Young Men's Hebrew Association in St. Louis last night.

He lashed out at the operation of the House Committee on un-American Activities, a group before which he appeared as a witness last year.

The Clergyman charged that the committee has a secret file on more than one million American citizens and said such a file is one of the first steps of a police state.

Bishop Oxnam charged the files contained data collected and compiled by a lot of people, many of them incompetent.

## WASHINGTON, Jan. 5. (INS)

A State Department official expressed optimism today over the chances of resuming the preliminary talks for a Korean political conference.

The talks were broken off before Christmas by American envoy Arthur Dean when the Red Chinese negotiators accused the U. S. of "perfidy" in South Korea.

Two names were omitted from the Belle Union High School Honor Roll for the last grading period. They were: Grade 9—Patsy Hurst, Paul Hodges.

## PEOPLE GIVEN ASSURANCE BY EISENHOWER

FREEDOM PLEDGES AID TO  
SUPPORT NATION'S  
PROSPERITY

WASHINGTON, Jan. 5. (UP)—President Eisenhower gave the American people his assurance Monday night that the government will use "every legitimate means" to sustain the nation's prosperity against any threat of recession and depression.

But he voiced a "persistent and reasoned faith" in the basic soundness of the economy and sternly rebuked the "self-appointed peddlers of gloom and doom."

Mr. Eisenhower launched his sharp counterattack against "boom and bust" fears Monday night in a nationwide radio-television report on his administration's accomplishments and plans on the eve of the second session of the 83rd Congress.

Democrats generally applauded his pledge to act promptly in case of a recession. They asserted, however, that his plan of action is borrowed from the Democrats. Some suggested that he should start moving now since a recession is already here.

"It is very good to know," said Senate Democratic Leader Lyndon Johnson of Texas, "that the administration has adopted what has always been a basic feature of Democratic policy—the belief that our people need not suffer from a boom and bust America."

Republicans warmly praised the address and predicted that the principles the President outlined would be followed by specific recommendations which Americans would approve.

Mr. Eisenhower acknowledged that "changing circumstances"—including the end of the Korean War and declining defense production—require economic adjustments. But he said these can be made "without encouraging disaster or without bringing about the economic chaos for which the Communists hope."

He did not spell out the "legitimate" means he would employ to meet a recession threat. But he did say the administration would not be indifferent to those in adversity "through no fault of their own."

And it is known that the government is prepared, if necessary, to alter its monetary policies, ease credit, place more orders for goods, and to take similar measures to pump new life into the economy if it shows signs of sagging.

Mr. Eisenhower did not give the public a detailed preview of his Jan. 7 State of the Union message in which he will make his legislative recommendations.

Describing the administration plans for 1954, the President said:

"It is a program that does not deal in pie-in-the-sky promises to all, nor in bribes to a few, nor in threats to any. It is a program inspired by zeal for the common good, dedicated to the welfare of every American family—whatever its means of livelihood may be, or its social position, or its ancestral strain, or its religious affiliation."

At least one quarter of the President's 15-minute radio and television address was devoted to listing the accomplishments of his administration in the past year.

## EXTRA!

Korea's release of some 25,000 anti-Communist prisoners of war before the truce was signed.

LONDON, Jan. 5.—(UP)—Weather-wary lowlanders cleaned up the debris of one flood today and girded for what may be another more devastating one this weekend.

Towering waves posed a new threat to the seawalls of northern Europe which already had been battered by floodwaters churned up by a howling northwester.

Large areas were inundated on both sides of the Iron Curtain in Germany. Authorities were preparing for possible disaster when the tides surge even higher this weekend.

No flood casualties had been reported so far, but authorities feared another storm this week might cause floods like those which killed 1,700 persons at this time last year.

Off Cuxhaven, Germany, a Greek sea captain and six of his crew stubbornly fought to save their cracked and grounded tanker in the gale-churned North Sea today despite urgent warnings from five rescue vessels standing by that the tanker was going to sink.

INDIANAPOLIS, Jan. 5. (UP)—Gov. Craig today blamed out-of-state motorists for a majority of Indiana's present-day auto accidents.

Hoosier drivers are cooperating in the campaign against highway recklessness, he said. He hoped to educate out-of-state motorists through tourist reports that Indiana is "strict" on traffic laws.

Craig also outlined two new approaches to the traffic problem. First, he said he will ask the 1955 State Legislature to mandate jail terms for drunken drivers. A similar measure failed to pass recent general assemblies.

Secondly, the governor said, state police may adopt a trooper's suggestion that state policemen submit weekly reports of traffic hazards in their patrol areas. The reports then would be referred to various state departments for corrective action, he said.

BLOOMINGTON, Ind., Jan. 5.—(UP)—Salary increases were awarded nine state officials by the Indiana Budget Committee today.

The committee, meeting at Indiana University, also appropriated about \$150,000 for work on state properties.

The salary boosts went to department and institutional leaders. No comparison was given to current salaries.

The new salaries: Central State Hospital superintendent, \$11,500 plus maintenance; Madison State Hospital superintendent, \$10,800 plus; Reformatory superintendent, \$7,000 plus; highway chief engineer, \$10,000; Tax Board chairman, \$9,700 plus cost of living; Tax Board members, \$9,200 plus; tax board secretary, \$6,900 plus; Teacher's retirement fund secretary, \$8,700 plus.

A Conservation Department request for \$200,000 to build a dam at Versailles State Park was taken under consideration.

WASHINGTON, June 5.—(UP)—The Army made public today the names of 21 Army personnel from Indiana who have been missing in action in Korea for more than a year and now are presumed dead.

The Army said the announcement does not mean those on the list are known to be dead beyond a shadow of doubt.

"In view of the lapse of time without information to support a continued presumption of survival, the . . . Army must terminate such absence by a presumptive finding of death," the announcement said.

The "presumptive date of death" was made Dec. 31, 1953, for all those listed. The action makes it possible to settle pay, allowances, accounts and death benefits.

INDIANAPOLIS, Jan. 5. (UP)—A blanket of snow settled over Indiana today as weathermen predicted "near normal" temperatures the next five days.

It wasn't the heaviest snow of the winter, but close to it, at least, in Indianapolis. Three inches on the ground here this morning was topped only by 3.6 inches Dec. 13 and 14.

Lafayette was covered with four inches and South Bend and Fort Wayne two inches. Temperatures remained mild—around

freezing—despite the snow. The Weather Bureau said temperatures Wednesday through Sunday will average near normal, maximums of 33 to 42 and minimums of 16 to 24. But they will drop below normal during the week end.

Precipitation—either rain or snow—was expected to total one-tenth to three-tenths of an inch the next five days. It is due about Thursday or Friday and "possibly" about Sunday.

Snow still was falling this morning upstate, but forecasters said it would end today. A temperature drop was due in the extreme south tonight.

WASHINGTON, Jan. 5.—(UP)—Two of 8,000 \$20 bills stolen from the U. S. Bureau of Engraving and Printing turned up today and a high Secret Service source said "there may be a break soon" in the biggest theft in the history of the big plant where all U. S. paper money is produced.

The two pieces of currency were the first hot clues in the \$160,000 theft discovered Monday.

They were picked up as Secret Service agents prepared lie detector tests for bureau employees who might have had opportunity to steal the money.

One of the crisp new \$20 bills was found by Isaac Jacobson, president of the National Produce Co., as he was checking receipts. It caught his eye because of the high serial number.

Jacobson said he received the bill from a small grocery in Lakoma Park, Md. The Lakoma Park grocer said he got it from one of his customers—whom he apparently identified to Secret Service agents.

The bill's serial number was B90255924A, one of those in the stolen batch.

The Secret Service refused to say where the other bill dropped up. But a high Secret Service official said:

"I think there may be a break soon."

## Senate Probers To Return Today

NEW YORK, Jan. 5.—(UP)—Two U. S. senators tracking down Soviet espionage activities were expected back today from a secret rendezvous in Canada with former Russian code clerk Igor Gouzenko.

The Canadian government announced formally early today that Sens. William Jenner, R-Ind., chairman of the Internal Security Subcommittee, and Pat McCarran, D-Nev., ranking minority member of the subcommittee, met Gouzenko at an undisclosed place in the Montreal area Monday.

The senators, accompanied by U. S. Ambassador R. Douglas Stuart, made a quick exit from the Windsor Hotel in Montreal Sunday afternoon and climbed into a black limousine. The big car sped toward the outskirts of town, and there was no further word from the Americans until Monday night when they returned to the hotel.

Jenner and McCarran issued no statement in Montreal concerning the success of their interview with Gouzenko, who fled from the Soviet Embassy in Ottawa seven years ago and gave U. S. and Canadian authorities information which led to the eventual cracking of the Rosenberg spy ring.

## U. S. Agents Hunt Missing Money

WASHINGTON, Jan. 5.—(UP)—Secret Service agents today combed the heavily guarded Bureau of Engraving Building for clues in the apparent theft of \$160,000 in new \$20 bills.

During the night, Secret Service agents conducted a foot-by-foot search of the massive engraving building where daily about 63-million dollars worth of currency is produced. They planned intensive questioning of the 25 to 30 employees who work in the packing rooms and prepare the freshly printed bills for temporary storage in the main vault.

The \$160,000 in two wrapped packets of 4,000, \$20 bills each, was discovered missing from the vault early Monday. The packets had been replaced by two hand-wrapped "dummy" packages containing blank paper, apparently before the vault was locked on Dec. 31.

The last bureau theft occurred in 1943 when three employees slipped \$4,000 in \$1 bills from the building tucked under their belts. The men were caught, two convicted and about \$3,600 of the money recovered.

Secret Service Chief U. E. Baughmann assumed personal direction of today's investigation and said the money's disappearance "appears to be a theft." The FBI agreed to join in the hunt if asked.

H. J. Haltzclaw, associate director of the bureau, would not concede that the money had been stolen and held out hope the missing money had been "misplaced." He said if the money has been taken in a theft, it will be "by far the largest in the bureau's history."

Mrs. Nona Davis has returned home after spending the holidays with her son, Burkett A. Davis and family in Arlington Heights, Ill.

Mr. and Mrs. Paul Boatright and daughter, Barbara, of Indianapolis, visited Mr. and Mrs. Roy Ikamire and family, and other relatives on New Year's Day.

The Warren Township Home Demonstration Club meeting has been postponed indefinitely because of illness.

Mr. and Mrs. Paul M. Mason, E. Washington St., are the parents of a son born Tuesday morning, at the Putnam County hospital.

Mr. and Mrs. Harold Mason and daughter, Mr. and Mrs. R. F. Windy, of St. Louis; and Mr. and Mrs. Leroy Mason and son, were guests of Mr. and Mrs. Ralph Mason, New Year's Day.

City firemen were called to the Stone home, 210 West Liberty street, at 3:55 p. m. Monday. They reported that the back steps to the dwelling caught fire from a grass and trash blaze. Damage was estimated at \$20.

Guests of Mr. and Mrs. Earl Babb, East Walnut street, over the Christmas and New Year holidays, were their oldest son, Mr. and Mrs. Donald Babb and daughter, Donna Lynn, of Pekin, Ill., and Mr. and Mrs. Herbert Wehmeier of Bloomington, Ill.

The Sands Funeral Home in Bainbridge announced that friends may call at any time to pay respects to Thomas Solomon, who died at the Putnam County hospital Monday. Funeral services will be held Thursday at 1:00 p. m. from the Sands Funeral Home, in Bainbridge.

Last rites were held Tuesday afternoon in Brazil for Hershel H. Acrea, 68, a native of Putnam county who passed away Saturday at his home in Perth. The deceased was born in Reelsville on Oct. 10, 1885, and was the son of Peter Virgil and Mickie Ann Mason Acrea. He was a retired New York Central railroad maintenance employee.

Mr. and Mrs. Willis Dickson of Bainbridge held their Christmas dinner on Sunday, Dec. 27th. Those present were Mr. and Mrs. Stanley Dickson and sons of Cambridge, O.; Mr. and Mrs. Kenneth Etcheson and son of Iowa City, Ia.; Mr. and Mrs. Woodrow Dickson and family of Greencastle; Mr. and Mrs. Osborne Dickson and family; Mr. and Mrs. Audrey Dickson and son, Mr. and Mrs. Paul Crodian, and Mr. and Mrs. James Crodian, all of Indianapolis, and Mrs. Maude Crodian of Bainbridge.

## Foreign Goods Ruin Business

MARION, Ind., Jan. 5.—(INS)—A Marion manufacturer today proposed a two point program designed to halt the importation of foreign goods which he said is ruining his business.

Walter B. Stephenson, president of the Delta Electric Company, released 200 workers recently. He said cancellation of orders for bicycle lamps and horns forced the reduction in staff.

Stephenson said importation of bicycles from Japan, England and Germany, which already are equipped with the accessories caused the crisis in his business. He said duty on foreign made bicycles has been cut so that is now only seven and one half per cent.

He said American manufacturers must be given relief from this situation and urged his employees to protest to United States Senators Homer E. Capehart and William E. Jenner and to fifth district congressman John V. Beaumer.

In a letter to his employees, Stephenson said only diversified production prevented a total shut down at the plant. He said bicycle manufacturers across the nation are beginning a campaign to force congressional action.

Stephenson said congress should:

## POW Release Is Scheduled Jan. 23

PANMUNJOM, Korea, Jan. 5.—(UP)—The Indian Command said today Indian Prime Minister Jawaharlal Nehru's government will decide what to do with 22,000 war prisoners on Jan. 23 unless the Allies and Communists agree on their fate before then.

"India has a special responsibility," an Indian spokesman said. "We will have to make up our minds."

Under the armistice agreement, prisoners of both sides who now are guarded by Indian troops must be released at 12:01 a. m. Jan. 23 unless they accept repatriation in the meantime.

United Nations Commander Gen. John E. Hull emphatically has informed the Neutral Nations Repatriation Commission, headed by Indian Lt. Gen. K. S. Thimayya, the Allies will insist on freeing the men on schedule.

Nehru stated openly in a press conference at New Delhi, India last Nov. 15 that the United Nations and Communists should examine the prisoner-release with a fresh viewpoint if a political conference was not convened to debate the fate of Korean War captives who rejected repatriation.

Two days after Nehru had proposed holding the prisoners beyond the deadline, U. S. Secretary of State John Foster Dulles said the men must be released on Jan. 23 as stipulated.

Efforts to get the political conference started failed. U. N. negotiator Arthur H. Dean called off the preliminary talks when the Reds insisted on inviting Russia to the conference as a neutral in the Korean War.

Intending to carry out the terms of the armistice, Hull has ordered construction of two camps inside Allied lines to receive the 22,000 Chinese and Korean anti-Communists when the deadline expires.

After the Dec. 23 deadline for "come home" interviews expired, the Indians made "head counts," calling anti-Communist prisoners before officers and asking their names and serial numbers. During the first "head count," 135 anti-Communists asked for repatriation.

South Korean authorities made vigorous objections and when the Indians resumed the "head count" Tuesday, ROK Foreign Minister Pyun Yung Tae threatened to "take some action" in behalf of the prisoners.

Eighth Army Commander Gen. Maxwell Taylor and Ambassador Ellis O. Briggs conferred with Pyun and President Syngman Rhee Monday night in an attempt to persuade them not to make any premature moves.

LOOKING...  
...AT LIFE

By Erich Brandeis

Punishment is never a cure for crime any more than a splint is a cure for a broken arm, or a tourniquet for a bleeding artery. These things can temporarily arrest, but they cannot heal.

In Bridgeport, Conn., a city of approximately 170,000, they have all sorts of youth movements and organizations such as the Boy Scouts, the Girl Scouts and a number of clubs and societies. These organizations have done

a good deal to decrease juvenile delinquency but they have not stopped it. As a matter of fact, as Mayor Jasper McLevy said in his annual message, juvenile misbehavior is increasing at an alarming rate.

McLevy, who has the unusual distinction of having been mayor of his city for more than 24 years and, who is more than 75-years-old and, therefore, ought to know the community and its people pretty well by now, believes that there comes a time when splints and tourniquets become absolutely necessary for the IMMEDIATE, though temporary, treatment of the patient.

From now on there will be strict enforcement of an ordinance which has been on the books since 1949 but to which nobody ever paid much attention.

Under this ordinance no child under 15 is permitted to be on the streets of Bridgeport after 10 o'clock at night, unless accompanied by his parents.

And here comes the really effective part of the ordinance. If any boy or girl disobeys the curfew, the PARENTS are arrested and are subject to a fine of \$100 or ten days in jail, or both.

That is putting the blame where it hurts—the pocketbook or, if that doesn't do the trick, jail.

At a recent session of the Senate Judiciary Committee's nationwide investigation of juvenile delinquency, one of the witnesses said that nowadays people live by an eleventh commandment, a recent addition to the 10 that have been in existence for thousands of years.

"Don't get caught," is commandment under number 11. It's all right to violate every other commandment—as long as you observe the eleventh one, everything is O. K., as far as they're concerned.

Kids who get themselves into trouble and wind up in the courts feel that they have violated only one of the commandments—the eleventh one. If they live up to that one, everything else is all right. Getting caught is the cardinal sin.

But it isn't only the children who have added the eleventh commandment to their catechism. Their parents, too, are guilty of the same violation. It's all right for parents to go gallivant-

ing, boozing, breaking almost every one of the other 10 commandments, as long as they obey the eleventh one—"Don't get caught."

That's what THEY think. But kids are smart nowadays. It doesn't take them long to catch their parents in their sins of omission and commission.

So the youngsters feel what's good enough (or rather bad enough) for Ma and Pa, is good enough for them. Ma and Pa may get by with their shortcomings under the guise of respectability. But children, being much less subtle, than their elders, become "juvenile delinquents."

Mayor Jasper McLevy certainly has the right idea. He calls a spade a spade. He puts the blame where it belongs.

the "worth more" car declares a dividend

Here Tomorrow!

STYLE  
DIVIDEND

## 3 distinctive lines—14 brilliant body styles

You just ought to try the '54 Ford... the car that brings a whole new set of value features to the low-price field. You'll find that each new feature is an extra dividend in driving enjoyment. And each new dividend establishes Ford, even more in '54, as the "Worth More" car.

You get a special dividend in styling, for example, with Ford's distinctive new appearance... smooth, clean lines. You get sparkling new interiors, too, that are a dividend in themselves. And each of the new Fords gives you special dividends in ride and performance... with new Ball-Joint Front Suspension, the greatest advance in chassis design in 20 years... with your choice of Ford's new low-friction Y-block V-8 or I-block Six, the most modern engines in any car today!

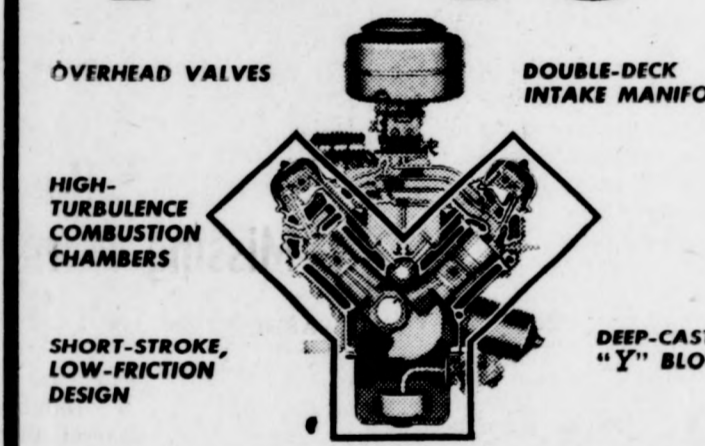

With 28 brilliant new models to choose from, you'll find the exact car to suit your tastes and requirements. Come in and see the '54 Ford. Test Drive it. Once you try it, you'll want to drive it home.

RIDE  
DIVIDEND

## New Ball-Joint Front Suspension

This revolutionary new suspension is exclusive to Ford in its field. It allows greater up and down wheel travel for a smoother ride... helps keep wheels in true alignment for consistently easy handling. Movement of wheels is on ball joints, whether in up and down motion or in steering motion as wheels turn right or left.

## The greatest engine advances since the original FORD V-8

TWENTY-TWO YEARS AGO Ford introduced to the low-price field a fine-quality precision-engineered V-8 engine. And now, with its 22 years' experience in building over 13,000,000 V-8's, it is only logical that Ford is first in its field to introduce a brand new type of V-8—the Y-block V-8... together with the most modern Six in the industry—the new and advanced I-block Six.

Both new 1954 Ford engines have overhead valves for most efficient high-compression operation on today's fuels. Both engines have a

deep-cast block with skirt that extends well below the crankshaft for greater strength and rigidity... smoother, quieter performance and extra-long engine life. Their modern short-stroke, low-friction design cuts friction losses... gives you more usable horsepower, more miles per gallon of gasoline. And new high-turbulence combustion chambers assure more efficient firing of fuel.

Plan to Test Drive a '54 Ford. You'll find these new Ford power plants stand out as the greatest engine advances since the original Ford V-8.

Plus five optional power assists\* you might find

## Master-Guide Power Steering

It does up to 75% of your steering work for you, when you need it... makes parking a pleasure. Yet it leaves you with the normal feel of steering on straightaways. In addition, it cushions out steering wheel "shock" on rough roads.

## Swift Pure Power Brakes

Power does up to one-third of the work of stopping for you! You are more relaxed in the stop and go driving of congested traffic. And should the system ever lose its power, "stopping" effort is the same as with conventional brakes.

## Power-Lift Windows

Smooth, silent electric power opens or closes windows at the touch of a button. There's a master control beside driver plus an individual control under each window. You may operate any of the Power-Lift Windows safely while driving.

## 4-Way Power Seat

Push one of two controls and front seat goes up or down... push the other and it goes front or back. It's a real convenience when different people have to drive—or when you want to change position to relieve fatigue or avoid sun glare.

## Fordomatic Drive

It combines the best in "automatic" engineering to give you the most versatile automatic shifting. You get the smoothness of a fluid torque converter, the "go" of an automatic intermediate gear. Ford also offers gas-saving Overdrive.

### Tigers To Play At St. Joseph's

DePauw's basketball squad will open post-holiday firing at St. Joseph's Wednesday night minus the services of its leading scorer and rebounder, center Gene Loercher.

Loercher suffered a badly sprained ankle during the Tigers' 53-80 road victory over Hope College Saturday and may also be side-lined for next Saturday's tilt with Indiana State.

Wednesday's affair in Collegeville will be a return engagement against the Pumas, defending champions in the ICC. DePauw took a 68-64 decision at home last month, with Loercher contributing 20 points.

The Tigers now have an overall record of five wins and two losses and a conference mark of three and two. Victims, in addition to St. Joe and Hope, were Evansville, Ball State and Wabash; and losses came at the hands of Indiana State and Valparaiso, both on the road.

Although he played only one-half of the Hope game, Loercher threw in 11 points to raise his season's total to 144—a 20.6 average. Forward Bob Schrier, with 23 points in the same contest, moved into second place in scoring with a 101 total for the first seven tilts.

### Tourneys Sent To Greencastle

The high school regional and sectional tourney for this county and district has been assigned to Greencastle. The sectional has been held here for years, but the regional is rotated between the four teams participating in the regional, including Covington, Clinton, Crawfordsville and Greencastle.

The Sectional will include the eight or nine teams from Putnam county.

INDIANAPOLIS, Jan. 5 — (INS)—The Indiana High School Athletic Association said today that it expects the smallest number of schools in nearly a quarter of a century to enter this spring's basketball tourney.

Commissioner L. V. Phillips said 751 schools appear set to enter the 1954 sectional tourney, four less than last year and the smallest number since 1929 when 454 schools competed.

Largest group ever to take off for the Hoosier hardwood flag was 787 in 1938.

Consolidations have taken a toll including little Wingate winner of the 1913 and 1914 titles, which went in with New Richmond to form Coal Creek Central. Concord Township and Spencerville became Concord-Spencer at St. Joe, and North Madison joined forces with Madison.

Three other schools, Bentonville, Quincy and Polk Township of Huntington county have discontinued since last year. Two full-member schools, Raub and Flint, are not expected to enter.

The latter two were balanced, however, with the addition to the 1954 sectionals for the first time of Our Lady of Providence High School at Clarksville and the Paul C. Schulte High School of Terre Haute.

Changes in assignment concerned the southeastern section of the state primarily. This year all Clark and Washington county schools will play at Jeffersonville and all Crawford, Floyd and Harrison county teams will play at New Albany.

The shift leaves Orange county with the only division. Paoli and Orleans will play in Bedford's sectional and French Lick and West Baden Springs will stay in the Huntington sectional.

The IHSAA board of control also revised the sectional schedules to conserve as much school time as possible.

At 29 centers, comprising the 8 through 11 team tourneys, no games will be scheduled on school time. In 25 other tourneys, only a half day of school will be used. And only in the 10 tourneys which have 15 and 16 teams will games be scheduled both in the morning and afternoon of a school day.

Sectional site changes send Attica to Covington; Martinsville to Bloomington; Bluffton to Gosport; Rockville to Clinton; Gosh-

en to Nappanee; Vevay to Lawrenceburg; Monticello to Wolcott; Oxford to Otterbein; and Rochester to Winamac.

In the Garrett-Auburn sections, which is the only two-site tourney, the two school alternate as host school with Garrett serving as center school this year.

Regional site changes send Bedford to Jeffersonville; Bloomington to Martinsville; Covington to Greencastle and Vincennes to Huntington.

There have been no changes in the semi-final centers for the 1954 tourney.

Totaling seating capacity for sectionals 225,566; regionals 99,412; semi-finals 43,572; and finals in Butler Fieldhouse 14,943, for an all tourneys total capacity of 383,493.

brilliant blues, green or new Cameo Coral combinations.

Exterior single colors for the Skyliner are Raven Black and Sandstone White. Two-tone colors include: Raven Black with Sandstone White top; Cadet Blue with Sandstone White top; Killarney Green with Sandstone White top; Sandstone White with Killarney Green top; Sandstone White with Cameo Coral top; Cameo Coral with Sandstone White top; Cameo Coral with Raven Black top.

The Skyliner body, like the Victoria, requires no side center pillars. Its rear window is almost 18 per cent larger than the rear window in sedans and coupes and it is framed by a rugged steel structure. The plastic top panel has high strength and has been tested under extreme temperatures both of heat and cold.

The Skyliner is a Ford exclusive in the high volume field. Like all 1954 Ford passenger cars, it is available with a choice of Ford's new 130-h.p. Y-block V-8 with modern short-stroke, low-friction and high compression design, or the new 115-h.p. I-block Mileage Maker Six, of similar modern design.

The 1954 lines of Ford trucks will go on display at King Morrison Foster Co., on Wednesday, January 6th. All truck users in the community are invited to visit the display room for a firsthand view of the popular line of commercial vehicles.

The five truck lines, including 24 series and more than 220 models, range from 4,000 lbs. to 40-

000 lbs. rated gross vehicle weight. They again feature Ford's famous "driverized" cabs which last year helped bring Ford a record 150 per cent truck sales increase over the previous year. And Master-Guide power steering now is available on the Big Jobs with Fordomatic fully-automatic transmission on all light duty models.

New to the line are the Series T-700 and T-800 tandem axle trucks with gross combination weights up to 60,000 lbs. They are factory-built with all components engineered for tandem operation.

"America's rapidly expanding truck market is daily finding new uses for truck transportation, with each new use requiring a special combination of engine, chassis and body. Consequently Ford's line has been expanded in 1954 to include the greatest range of trucks we ever have offered, all powered by the most modern line of truck engines on the market."

MAP LOCATES Vicksburg, Miss., where a tornado killed 30, injured more than 300 persons.

Practical addition to Hudson's 1954 line is the Jet Utility Sedan, which doubles as a roomy, six-passenger sedan and, with back seat removed, as a carryall for sports equipment, salesman's samples or farm produce. Its Instant Action engine with Super Induction gives more power and better performance throughout the driving range. Due to "step-down" design and low center of gravity, the Hudson Jet can safely handle more power in relation to weight than any car in its class.

## ON DISPLAY SATURDAY

JANUARY 9th

Massey-Harris carburetors are precision designed and adjusted to individual engines. Assures correct mixture at all speeds.

Free-flowing, long throat manifold means fast, uniform vaporization... quick fuel delivery... equal charge to each cylinder.

Cycle-Head combustion spins and swirls the burning fuel... gives it a cyclonic turbulence for the full length of the piston stroke.

Longer piston stroke means greater power leverage... more "torque reserve"... more lasting power at low engine r.p.m.

Massey-Harris transmission gears have a positive full-mesh contact. They're cut to tolerances of less than 1/1000 part of an inch.

Came To Post-Mortem

Sometimes Mr. Heinsite's post-mortem analyses are faulty but they still go unchallenged. This is because they have the ring of truth—and because most players don't want to go to the trouble of "analyzing the analysis." They would rather get on to the next deal.

In today's hand Mr. Dale led the ace of hearts, trying to conceal the fact that he also held the king. Miss Brash ruffed, cashed the ace of diamonds and ruffed a diamond on the board. Next she played the ace and king of clubs. She now played the king of diamonds and ruffed another diamond.

mon with dummy's last trump.

She still had a losing spade, so she then led the queen of hearts and discarded the four of spades when Mr. Heinsite did not cover. But Mr. Dale showed up with the king of hearts and his queen of trumps completed the set.

Dale Squeezed

"The hand was ice-cold," announced Mr. Heinsite. "After ruffing the first heart, cashing the ace of diamonds and ruffing a diamond, you should have led to your ace of clubs and ruffed another diamond with the eight of clubs. Now lead another club to your king. Cash the king of diamonds. Lead the pack of diamonds.

"If Dale ruffs here he has to lead a spade or a heart and either lead gives you the rest. So he has to discard a spade. Now you lead the six of diamonds and he has just as big a problem. Now he is squeezed. If he plays another spade, you play the 10 of spades from dummy. Then you lead to the king of spades, dropping the jack, and return a spade and finesse your nine.

"Or, if he discards a heart, you lead the ace and king of spades, return a heart and ruff it, losing only the last trick."

Could Ruff 6-D

What Mr. Heinsite (and everybody else) overlooked was the fact that, in the above sequence of plays, Mr. Dale could safely ruff the six of diamonds because of that trick dummy would be squeezed.

Dummy would be down to K 10 8 of spades and Q J hearts. If a heart was discarded, Mr. Dale could safely lay down the ace of hearts and Miss Brash would have a spade loser. If a spade was discarded from dummy, Mr. Dale, holding J 3 at this point, could safely play the trey and again Miss Brash would have no play for 12 tricks.

## Boonville Mine May Stay Closed

BOONVILLE, Ind., Jan. 5—(INS)—Officials of Enoco No. 5 mine near Boonville said today that unless striking miners accept a modernized mechanical program, the mine will remain closed.

The mine was shut down last night because United Mine Workers members objected to the modernization process. Nearly 500 miners refused to work Monday in a dispute over the layoff of 75 men and an intervention ap-

peal was sent to John L. Lewis, union president.

Vernon Lansford, president of Local No. 8033 of the UMW, said no official strike had been called out predicted the work stoppage would continue until the lay-off controversy is settled.

Company spokesmen said the lay off method was used in conformity with the national mine wage agreement negotiated in October, 1952.

But the union protested that the seniority system was being violated.

At issue, was the "continuous mining" system, involving new equipment, under which the com-

pany hopes to increase the daily output per miner from the present seven tons to 15 tons.

## COUPLE IN HIDING

EDINBURGH, Scotland, Jan. 5—A Bolivian multi-millionaire today directed a corps of detectives to find where his daughter is hiding with a handsome young Englishman before the couple becomes eligible to wed Wednesday.

In a last minute effort to halt their planned elopement, Antenor Patton hired a firm of Scottish private detectives to find dark-

eyed Maria Isabella Patino, and James Michael Goldsmith, 20.

The romantic young lovers defied their wealthy parents and fled to Scotland last month. They hid out, established the 15 days residence required by Scottish law, filed an intent to marry Dec. 29, and become eligible to wed Wednesday.

The parents of both oppose the marriage because they feel the couple is too young. But parental consent to wed is not required in Scotland for persons over 15.

Marshal Konev Nikita Khrushchev V. M. Molotov

NIKITA KHRUSHCHEV may be the new No. 2 man in Russia, according to reports following execution of Lavrenty P. Beria and six others. Thus he would supplant Foreign Minister Molotov, who was one of a Malenkov-Beria-Molotov triumvirate after Stalin's death. The fact that Marshal Ivan S. Konev chairmanned the supreme court which condemned the Beria group indicates ascendancy of the Red army over the secret police, which Beria headed. ## Winter OUTSIDE-

Summer INSIDE-

WITH YOUR AUTOMATIC Electric DRYER!

● Lucky gal—you can laugh at the weatherman! Rain or shine, winter or summer, you can dry your clothes inside, automatically, at the touch of your electric dryer's switch! All your things come out fresh and sweet-smelling every time. You can say good-bye forever to the old-fashioned clothesline—the symbol of back-breaking stooping, lifting, stretching, and straining.

There's no reason for any 1954 homemaker not to be enjoying this modern-day miracle. Nearby electric appliance dealers sell automatic electric dryers, washers, and ironers on very easy monthly terms. If you're still doing your laundry the old-fashioned way, see your dealer now and make "ole debbil washday" a thing of the past!
